Suggested First Queries for NotebookLM

For understanding the site strategy:

- “What is the EyalAmit.co.il site supposed to do and what makes it different from the old site?”
- “What are the four jobs the new site must accomplish?”
- “Why was the decision made to rebuild from scratch rather than renovate the old site?”

For information architecture:

- “Walk me through the full site structure and explain why the navigation is organized this way.”

- "Why are Treatment and Lessons primary navigation items rather than sub-items under Services?"
- "What is the difference between the Treatment page, the Method page, and the Sound Healing page?"

For SEO and AI distribution:

- "Explain the three layers of search optimization built into this site (SEO, AEO, GEO)."
- "How is the site being optimized for AI search tools like ChatGPT and Perplexity?"
- "What is the 'answer block model' and why is it mandatory on service pages?"
- "What should the robots.txt say and why does it treat different AI crawlers differently?"
- "What is llms.txt and what should it contain for this site?"

For marketing and copy:

- "What is the brand's core positioning and what must every message reinforce?"
- "What is the locked hero copy for the homepage and treatment page?"
- "How does the site explain the difference between treatment and sound healing?"
- "What is the personal origin story used on the treatment page and why is it there?"
- "What is the tone of voice for this brand and what must it avoid?"

For design:

- "What are the brand colors and what is each color used for?"
- "What are the three homepage visual direction options and how do they differ?"
- "What is the 'answer block pattern' and how is it visually implemented?"
- "What typography is approved for the site?"

Generate an Audio Overview

After uploading files, use NotebookLM's **Audio Overview** for a summary. Customize:

- **For a design review:** "Focus on the visual identity and brand – colors, typography, design philosophy, the homepage direction options. What design decisions are locked and what is still open?"
- **For an SEO or content partner:** "Focus on the search optimization strategy – SEO, AEO, and GEO. How is the site structured for AI discovery? What is the answer block model? How does the blog fit into the strategy?"

- **For a copywriting collaboration:** "Focus on the marketing messages – the brand positioning, the locked hero copy, the tone of voice guidelines, and the key audience segments."
- **For a strategic overview:** "Focus on the site as a product – what problem it solves for the brand, what the competitive opportunity is, and what makes this rebuild different from a standard business site."
